

Y^y J^W: In reference to the Youth's Botany,
we would like to commence stereotyping at once
so as to be ready for Spring. We incline to think
that even at some sacrifice of value & interest
it had better be kept within the limits of 50^c
or 62 cent book. We shall hope, in these
hard times, that you will make as free
use of cuts already made as possible.
Please advise us of the present state of
the book. Sincerely,

Very Truly Yours
J. P.
